Update on road carriageway works on Brickworth Road, A27

Wiltshire Council have advised that the works scheduled for earlier in the year have been postponed until the 2025 surface dressing season. Hence why the road studs removed in anticipation of the works have been reinstated with temporary studs, and the site will be reassessed in advance of the works next spring/summer to establish if any further prep work is required.

When undertaken, the section from the A36 outside the carwash, up to the 30mph gateway at Whiteparish will receive a surface dressing treatment to prolong the carriageways lifespan without more disruptive intervention.
